

GIAN ANDREA ROSSI

gianandrearossi2003@gmail.com • +44 (0)7394413838 • London, UK

EDUCATION

Imperial College London

Mechanical Engineering - Expected Grade: First Class Honors (1:1)

London, England

Sep 2022 – Jun 2026

- **Awards:** Year 2 Dean's List Award (top 10% of the cohort of 200 students)
- **Thesis:** Model a novel heat pump design with fuel cells as heat exchangers for higher COP values and lower pollution from refrigerant use. Operational optimisation for domestic and industrial applications.
- **Research:** Assessing the technical-economic position of Concentrating Solar Power in the energy market and its role in the solar industry compared to photovoltaics. Review of the main future trends including CSP+ and energy storage technologies to lower LCOE and ensure security of supply.
- **Relevant Modules:** Energy Systems, CFD, Future Clean Transport Technology, Sustainable Electrical Systems, Intro to Nuclear Energy, Finance & Financial Modelling, Business Economics

Liceo Scientifico "A. Einstein"

Italian "Diploma di Maturità"- Grade: 100/100 *cum laudae* (perfect score with honours)

Rimini, Italy

Sep 2017 – Jun 2022

- **Council President & School Representative** - Student societies and representation role in organisations

PROFESSIONAL EXPERIENCE

Consultant Intern - Advancy

Leading consultancy in the Chemicals industry

Jun – Sep 2025

- Modelled three procurement strategies alternatives to reduce COGS in the \$180m saving strategy for Stonepeak (AUM: \$57bn) acquisition of 65% stake in Castrol (\$1.1bn EBITDA) from BP.
- Modelled the latex market's capacity evolution and the impact of American tariffs on Malaysian producers cost structure for a PE client (AUM: \$22bn) DD on a leading latexes and adhesives producer (£150m EBITDA), identifying the cost curve positioning of the client's target in the future.

R&D Intern - TechnoGym

Leading company designing and producing high-tech luxury training equipment

Jun – Sep 2024

- Achieved a 15% cost reduction on two flagship products by changing suppliers, optimising yearly component production volumes, and modifying designs and materials of internal components.
- In charge to collect and analyse supply chain CO₂ emissions to be incorporated into the annual ESG report: conducted analysis on materials from 8 main suppliers in Asia and EU.

Engineering Intern - Paglierani

Global supplier of top-quality mechatronics machines for packaging processes

Aug – Sep 2023

- Optimised screw conveyor speed by 8% modelling the flow in Python & presented to executive board.
- Designed and presented a flour funnel to three clients in South America to reduce filtering time by 10%.

LEADERSHIP & ACTIVITIES

President - Imperial Italian Society (130 members)

Oct 2023 – Jun 2025

- Planned and chaired the largest event in the Italian Society's history: panel with Formula 1 group CEO Stefano Domenicali with 350 attendees from six London Universities.
- Hosted three social events connecting 70+ Undergrad and Postgrad Italian Imperial College students.

Project Lead - "Low Emission Engine" Year 3 Project

Oct 2024 – Jun 2025

- Managed the project to convert a petrol engine to run with H₂O₂ into the blend, reducing NO_x emissions by 15% and achieving a 7% higher efficiency - first engine of this kind able to run with the new blend.
- Allocated the £1,500 budget assigned from the department with specified supplier and manufacturer selection rationale. Cut the costs by £200 by finding alternative products and manufacturing processes.

Executive Member - United Italian Societies (11,000 members)

Jun 2024 – Jun 2025

- Organized two panels with 200 attendees for the "Italian Symposium" (multi-panel event with notable Italian individuals as guests) collaborating with the Italian Embassy in London and Imperial College.

Chassis Engineer - Imperial Formula Student

Nov 2023 – Jun 2025

- Designed and manufactured the oil reservoir reducing the weight by 30% through material selection.

ADDITIONAL INFORMATION

Languages: Italian - Native; English - Fluent; Spanish - Fluent

Programming: Python, C++, MATLAB, R

Sport: Tennis – Imperial College BUCS Men Team (2025); 3rd category in National (ITA) ranking

Certificates: BCG strategy consulting virtual experience, Bloomberg Market Concepts, MATLAB Onramp
